SHOT FROM AMBUSH.

A MAN ASSASSINATED IN PATRICK

Found Dead in His Field with s Bullet-Hole in His Head-The

FLOYD, VA., July 29.-(Special.)-The mil-carrier from this place to Elamsville, Patrick county, brought the news here yesterday evening of the assassination of Charlie De Hart, of Patrick, yesterday morning. De Hart lived with his widowed mother, and went to the field yesterday to cut oats. As he did not ne home at dinner-time a little girl was sent to the field, and found him lying dead by his cradle, with a builetthrough his head, the shot having been fired, it is supposed, from ambushthe assassin having been concealed in the at the edge of the field. Some ands who were working in an adjoining field heard the shot and saw the smoke from the gun, but ald not see any one, and paid no attention to the shooting. When the mail-carrier passed, the body was still lying in the field, awaiting the arrival of the coroner.

SUPPOSED CAUSE. De Hart has long been suspected of reporting illiest distillers to the revenue officers, and it is supposed that the ball that crashed through his brain came from a gun in the hands of a moonshiner whom De Hart had reported

whom De Hart had reported.

An informer gets 310 from the government for each still located and destroyed by the officers. A great many stills have been destroyed within the past few months, and the feeling against these informers is very bitter.

A MORE SUMMARY CURE. Heretofore the moonshiners have been centent with whipping unmercifully the centent with whipping amount of the suspected parties, but they have, it meems, now resorted to the deadly fire. The attack on the revenue officers some ten days ago was a very bold and reckless affair.

Inquiries for Small Farms-Good Financial Conditions.

CHASE CITY, VA., July 29.-(Special.)-There are numerous inquiries, both by letter and in person, for small farms in this section from the Northern and Western States. Mr. J. W. Hoyt, of Tioga county. Meckleaburg is now in excellent finan-cial condition. The Board of Supervisors met this week and decided to reduce the county lavy of 55 cents on \$100 valua-tion of property for last year to 40 cents on the assessment for this year. The county now conducts its affairs on the sh basis. The building of bridges and her county improvements is contract-for, to be paid on completion of work. This saves a large per cent, to the county, and the supervisors are entitled to credit for the restoration of cash sys-

As an evidence of how people utilize early news, I will state that late in the evening of the 20th of this month lightning struck the Southside Academy building here, killing a teacher. The next morning, the 21st, the news appeared in the Dispatch, and by the same mail of that day bringing the paper came appli-cations to the principal for the vacancy.

Free Silver in New Jersey. (New York Journal.)

Will you kindly let the New York Journal know what influence, if any, the free-silver doctrine is having in your neighborhood; whether it has led or is now leading to any desertions from the old parties, and whether it will affect the vote this fall? The New York Journal would be glad of a few words from you on this subject, and would be glad to reciprocate in any way in its power.

This question was asked the leading editors of New Jersey, and the result has been a flood of responses. From them it is evident that the free-silver idea has not taken a firm hold in the minds of voters, and also that it is a subject that has, apparently, not received a great deal of study. Yet there have been converts to the cause from both the Republican and Democratic parties, and, if anything, the sentiment in favor of the white metal appears to be gaining, more particularly in the agricultural population.
